

## What are you doing this Friday afternoon? Come try out our exciting new class... **Wired 101!**

We're offering a single trial-class this Friday, January 27, for girls to give **Wired 101** a test drive. Join us!

In **Wired 101**, girls learn to construct circuits and incorporate them into fun and useful objects. Favorite projects include light-up quiz boards, draw-bots, circuit cards, brush-bugs, and much more.

After just one class, girls are comfortable planning their own simple circuits, adding switches, and incorporating small motors and LEDs. All materials are simple and safe – no shocks here – just plenty of discovery, and we hope you will be a part of it!

Please sign up with Michael Jasmin to join us for a test drive of our **Wired 101** class on Friday, January 27th. If your child is not currently registered for after-school, please bring a snack. Looking forward to seeing you!

For any class specific questions, please e-mail Curious Jane's Afterschool Co-ordinator, Beth Fauerbach at [beth@curiousjanecamp.com](mailto:beth@curiousjanecamp.com)
